Human Connection = Jesus Church Organized

BY BOBBY DUNCAN

Our Journey staff/elders and wives just returned from a church leadership conference, Spire 2026. This year the 3-day event was held at Northview Church in Carmel, Indiana. 2,500 attendees were in person. Others were watching the livestream from a distance.

We all returned home filled with more passion for God and people seeking Him. What an amazing time of worship gathering, training, teaching, and sharing God's Truth for the modern church today.

One of the on stage speakers, Carey Nieuwhof, author of "AI AND THE FUTURE CHURCH," writes: "A world growing more synthetic by the day is producing something no church growth strategy ever could: people desperately hungry for what's real. As the world becomes more artificial, the church's calling is to become more human. The church's future direction is human connection."

This weekend Journey Community Christian Church - Cynthiana, Ky desires to provide a human connection for you, your family and friends. We're not trying to coddle you, lecture you, or judge you. We want to connect with you in our gathering space. Inviting God to join us for support, encouragement, purpose and His mission for all of us, on earth. Go God.

Our current series is called, Multiply & Amplify. The series is from Titus in the Bible. This weekend we're in Titus 2:1-3. Check out these 71 words in this short passage. Read them for yourself before you arrive. Find which words or phrases help you define personal goals which God has promised to bless right now. Allow God to speak wisdom into your thoughts and thinking; clearing up questions, and laying down a path to follow. Go God.

Journey Church Cynthiana wants to reproduce Jesus followers, who becoming disciples, then going, and making more disciples. We believe this what God has in mind for every Jesus Church, everywhere. Let's do this.

See you inside Journey Sat@6pm/Sun@10:30am as we ask God to lead us, teach us, HOW we Multiply & Amplify and see what God can do! Human connection leads to human flourishing. We are better together.

PS - We're sharing some BIG news this weekend inside both our services; God is leading & directing for our future. Go God!
